Ample green space with use of native plants in the landscape 5. Dual flushing system 6. Use of LED lights in common areas 7. Recycled water for gardening 8. Use of SRI tiles to reflect heat from the roof. 9. Low VOC materials 1. 24 hour treated water supply through water treatment plant 2. Superior quality waterproofing wherever necessary 3. Sufficient project illumination through compound & street lighting inside the complex 4. Anti-termite treatment during various stages of construction 5. Outline gerthing for entire project. | | | |
| 16. Karaoke Room 17. Aerobic Room 18. Aerobic Room 19. Green Initiatives 1. Organic waste management 2. Water efficient fixtures 3. Rainwater harvesting 4. Ample green space with use of native plants in the landscape 5. Dual flushing system 6. Use of LED lights in common areas 7. Recycled water for gardening 8. Use of SRI tiles to reflect heat from the roof. 9. Low VOC materials 1. 24 hour treated water supply through water treatment plant 2. Superior quality waterproofing wherever necessary 3. Sufficient project illumination through compound & street lighting inside the complex 4. Anti-termite treatment during various stages of construction 5. Orgality earthing for entire project. | | 11 | |
