AREA STATEMENT RELATED CLARIFICATION

This is to declare and certify that the marginal differences in DECIMALS being shown in the Application and the Area Statement is because of the reason that WBRERA website automatically takes the Rounded off Figure and not the Decimal Figure in the Website and that is a Technicality in the Website only.

That in our Case it is showing as under:

Total Residential Built-Up Area	: 676.368 SqMt (Declaration) - 676 Sqmt(Application Form)
Total Residential Carpet Area	: 603.520 SqMt (Declaration) - 603 Sqmt(Application Form)
Total Commercial Built-Up Area	: 94.823 SqMt (Declaration) - 94 Sqmt(Application Form)
Total Commercial Carpet Area	: 88.671 SqMt (Declaration) - 88 Sqmt(Application Form)

That, whenever any puts a Decimal Figure the Website automatically takes the Rounded off Figure, hence the Marginal Differences in the Online Application Form and Declaration is being shown in the Website.

I, declare the above statement to be fully true and correct and take full responsibility of the same.
