The first thing I noticed
 was the smell of the sea.
 It was so strong and salty,
 like something I had never before.
 I had heard about it, but
 now I knew what it was like.
 The sun was shining brightly,
 and the water was so blue.
 I had never seen anything like it
 before. It was so beautiful,
 and I felt like I was in a new world.
 I had heard about it, but now I knew
 what it was like. The sun was shining
 brightly, and the water was so blue.
 I had never seen anything like it before.
 It was so beautiful, and I felt like I
 was in a new world. I had heard about
 it, but now I knew what it was like.

- perhaps more good - only people who
 believe in the system of law are
 able to get along with it.
 The moral side of things
 is also very important. It is
 not enough to have laws if
 they are not backed up by
 a strong moral sense. In fact,
 the moral sense is what makes
 the difference between a good
 society and a bad one.

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the structure of the atom.
