PLOT NO - 2947, SANTIPUR, 741404.

**Sub: Supply and Installation of 02 nos. KONE make-
 passenger Elevator for your project at Plot no- 2947, Santipur**

Equipment No: 45395249-50.

Dear Sir,

This is to inform you that the following activities are to be done before reaching the material to your project before starting the installation work of elevator.

LIFT STOREROOM:

- Lift storeroom should be within 20 meters from the lift shaft. Block wise.
- Lift store should be separate, lockable, clean, dry and proper illumination at ground/ 1st floor.

Lift PIT:

- Elevator pit should be waterproof, dry, clean, & pit depth should be as per KONE'S drawing. (1600 mm)

Lift SHAFT.

- Lift Shaft should be clean, Whitewash, Dry, Plastered in case of brick wall as per approved GAD.
- Entrance wall construction with necessary height of lintel as per GAD & plastered from inside with Whitewash.
- Provision of cut out for LPB, HLG, FRD, ALARM, Controller. (After slow speed)
- Scaffolding installation (if not in KONE'S scope.) safe as per KONE'S drawing.
- Finish floor level (FFL) marking to be done in all elevator service floor.
- Buffer block to be done as require. (After Rail & Landing fixing work complete for scaffolding jobs & Tirak job after 1st Rail)
- If fly ash Brick is use in the lift wall, if there is any extra cost for that you have to bear it.

If any deviation found at the time of installation of lift shaft, Lift front wall dimensions may be change. The rectification to be done by customer.

Lift MACHINE ROOM.

- Window, Door to be fix in lift machine room, it should be lockable and opening towards outside. Cross ventilation requires. (Iron door with sunset)
- Lift machine room Stair railing and door sill to be fix. (If applicable)
- Proper illumination requires in lift machine room. (If applicable)

Office & Factory
 Plot No.: A-28
 SIPCOT Industrial Park
 Pillaipakkam, Sriperumbudur Taluk,
 Chennai - 601 304

- Exhaust fan and louver to be fixed as per KONE guideline.
- Pocket cutting to be done as per KONE'S GAD.
- LOAD HOOK to be done as per KONE'S GAD.
- Lift machine room should be Whitewash, Machine room flooring adequate strength, level and clean.
- Trap door with load hook, lock as per GAD. If require.

ELECTRICAL WORK.

- Two no separate earth pit require for each elevator for the earthing of elevator equipment and double earth wire/strip terminated wire bus bar (14 hole, need 12 mm dia.) on the lift head room/lift machine room and lobby floor.
- Require rated Main switch/MCB/TPN 440-volt, 230-volt, power supply at lift machine room/Top floor lobby floor and Ground floor lobby floor as require.
- All electrical board complete and bulkhead rigidly fixed in elevator shaft with plug point with switch as per location of KONE'S drawing.
- Double Earthing to be done of all DB box/ all panel board/MCB box etc. with 8 SWG GI/Copper wire.
- Separate Switch board for pit light require inside lift shaft which will be operate from the outside of the bottom most floor.
- All electrical cable/Wire connection to be done with proper socket/Lugs, Gland, rated fuse wire.
- 1-phase separate points for shaft light and car light from ground floor to lift machine room/ Top floor.
- 2 nos. dedicatedly separated earth pit require for one lift.

Please provide us the completion date of undone works as above for our further work progress.

If you need any clarification or guidance, please feel free to get in touch with us. Also, if any deviation found it should be rectify by client.

Note: After all points of customer scope are completed installation will start.

Thanking you and assuring you of KONE'S best attention and services at all times.

Thanking You,

Yours faithfully,

For **KONE ELEVATOR INDIA PVT. LTD.**
