#### Disclaimers

- 1 Surface Flatness/ linear dimensions of all tiles will be as per I.S Standards. Hence allowable tolerance limits towards warpage, lippage etc. as per I.S codes shall be applicable.
- 2 Vitrified Tiles and Granite are heterogeneous materials containing veins, fissures and with tonal differences. Because of firing, slight variation from the standard color is unavoidable for Vitrified Tiles. There will be color and markings caused by their complex mineral composition and incorporated impurities. As such, it is impossible to guarantee homogeneity.  
  
Granite slabs are pre-polished before laying and care will be taken for their installation. However, granite being a hard material cannot be re-polished after installation. Hence, some imperfections may be seen at the joints. Although the vitrified and granite tiles/slabs are cut and produced by available standards of workmanship and machinery, the surfaces of these materials are not perfectly straight or flat and it is not always possible to avoid the resultant gaps/voids formed beneath the vitrified and granite tiles/slabs after installation. The tonality and pattern of vitrified or granite selected and installed shall be subject to availability.
- 3 Dimensions shown in the brochure are all 'structural dimensions' and not 'finished dimensions'. The carpet area has been calculated based on structural dimensions only.

- 4 As the wall finishes are 'putty finish over raw surface' and Not Pata Finish, minor flaws relating to edge finish, undulation etc. may be present. Hence 'anything which can be rectified during painting work, should not be considered as defects'.
- 5 Warranty of equipment will be provided for manufacturing defects only and not for mishandling of equipment.
- 6 The Bathrooms/ Toilets are divided into two zones, i.e. dry zone & wet zone. In dry-zone 'unidirectional' slopes are provided whereas in wet zone though every possible care shall be taken to ensure proper drainage of water, however due to inherent characteristics of tiles minor water accumulation may occur in certain pockets which should not be considered as defects.
- 7 The brand(s) and model(s) of equipment, sanitary wares, fittings, accessories and other appliances to be supplied by the Vendor may be changed subject to availability.
- 8 Whilst reasonable care has been taken in preparing the brochure and constructing the model and the sales gallery/show unit (SGSU), the Vendor and its agents shall not be held responsible for any inaccuracies in their contents or between the SGSU and the actual unit.
- 9 All statements, literature and depictions in the SGSU are not to be regarded as a statement or representations of the fact.
- 10 Visual representation such as layout plans, finishes, illustrations, pictures, photographs and drawings contained in the SGSU are artists' impressions only and not representation of fact. Such representations are for general guidance only and should not be relied upon as accurately describing any specific matter.
- 11 Throughout the execution of all items of work including flooring material, doors, aluminum etc., the relevant norms and standard of existing current Indian Standard Code shall be followed.
