

Block-3/1st floor

Block-3/2nd floor

A narrow, dimly lit hallway under construction. The walls are made of grey concrete blocks, some of which are still in the process of being laid or are partially covered with white plaster. The floor is uneven, covered with dust, debris, and some scattered bricks. On the left side, there is a large, dark, rectangular object, possibly a piece of construction equipment or a large bag. In the background, a doorway leads to another room, which appears to be under construction as well. The overall atmosphere is one of a work-in-progress space.
