

- Weld and reinforcement for anchors to be installed in accordance with the following:
    - Reinforce against any settlement, by the use of rock anchors and/or tiebacks, as approved by the Engineer and the owner.
  - Protecting materials containing the following:
    - Reinforcing steel shall be protected by a minimum of 1" specified in the contract documents.
    - Concrete except should provide durability of 100%.
    - Reinforcing steel should be substituted for concrete.
  - Design of all structural members including the following:
    - Design of all members to exceed specified by the Engineer.
  - The anchors to be valid for 5 years from date of installation.
  - Information required to be supplied to the Engineer:
    - Construction of reinforcement.
    - Construction of reinforcement.
    - Construction of reinforcement.
  - The anchors to be valid for 5 years from date of installation.
  - The construction should be carried out in accordance with the specifications of the contract documents.
  - Construction of reinforcement, rock and steel anchors.
  - Any other information required by the Engineer.
- ARAB. B. Engineer  
 South 24, P. 2.3  
 District 2
