For the construction following measures are to be strictly taken to reduce the effects of dust and noise during construction:

- Properly covering all building materials stacked at the site in cement bags, sand, lime & other chips.
- Using water sprays or machines to keep the dust down during activities such as concreting, plastering, breaking concrete and piling activities.
- Washing the wheels of vehicles leaving the site. If they are carrying mud or waste.
- Putting up silt barriers around the site.
- Properly covering trucks & vehicles that enter and leave the site carrying building materials and building debris.
- Cleaning and washing the road and footpath adjacent to the site at frequent intervals.
- Using dust bags, spraying water when taking stone cranes and making the working area wet before using the machines.
- Not burning waste materials on the site which causes smoke containing carbon monoxide and a range of other noxious substances.
